MY LIFE PHILOSOPHY

Motivated Software Developer with strong skills in Python, JavaScript, and Backend Development. Experienced in building real-world applications using REST APIs and modern technologies. Passionate about solving complex problems, writing clean code, and continuously learning new technologies.

Experience

Intern, HR Recruiter	01/01/2026 – 01/03/2026
• Sourced and screened candidates using LinkedIn and job portals • Conducted initial interviews and evaluated technical & communication skills • Coordinated hiring processes with internal teams • Developed strong communication, decision-making, and interpersonal skills	
Trainee, 510 Army Base Workshop, Indian Army	01/06/2025 – 01/07/2025
• Gained exposure to technical systems and programming fundamentals • Developed discipline, teamwork, and problem-solving mindset	
	Meerut, India

Education

B.Tech in Computer Science, Dewan VS Institute of Engineering and Technology	2022 – 2026
Overall percentage: 70%	Meerut, India
12th in Discipline science, Mansarovar public school	04/2021 – 06/2022
	Babri, shamli, India
High School, Mansarovar public school	04/2019 – 06/2020
	Babri, shamli, India

Skill

Languages • Python • JavaScript • HTML • CSS • Java	Backend Development • Node.js • Express.js
Core Concepts • Data Structures & Algorithms • OOP • DBMS	Technologies • REST APIs • JSON • Basic AI Concepts
Generative AI Basic of Generative AI	Tools • Git • VS Code

Projects

Student performance predictor

- Developed a Student Performance Predictor using Machine Learning.
- Predicted student performance using attendance and academic data.
- Applied data preprocessing and predictive analytics techniques.
- Improved accuracy in student performance evaluation.

AI-Based Notes Generator

- Developed an intelligent system to generate structured notes from video content
- Applied NLP techniques to extract key insights automatically
- Designed quiz-based learning feature to enhance user understanding
- Reduced manual effort and improved study efficiency

Task Manager Web Application

- Built a backend-driven application using Node.js and Express
- Implemented RESTful APIs with full CRUD functionality
- Enabled efficient task tracking and management
- Used Git for version control and project management

Certifications

- Data Science Job Simulation - Commonwealth Bank (Forage)
- Data Analytics Job Simulation - Deloitte (Forage)
- Python Certification - DataFlair

Strengths

- Strong Problem-Solving Ability
- Effective Communication
- Fast Learner & Adaptable
- Team Collaboration & Leadership
